CASEBOOK 2 Windows

Based in the UK - TETRATAB are a trusted and recognised supplier of rugged workforce tablets to police, fire, ambulance and other 'front-line' rugged workforce markets worldwide – where value for money, reliability and robust flexibility are key.

The original **CASEBOOK** tablets are in daily use by police, fire, border protection, engineering, local authorities, logistics and transport organisations world-wide.

With the launch of their new enhanced **CASEBOOK 2 Windows** range – TETRATAB are bringing even higher levels of flexibility, design and value to their rugged tablet portfolio.

DROP, WATER & DUST PROTECTION

Designed to Last

- Shock resistant structure ensures reliability and ruggedness
- Resistant to drops of up to 70cm onto concrete
- Innovative spill resistant design protects circuitry from liquid exposure
- Rounded edges and smooth corners for maximum user safety

IP51 (dust and water resistance)

- Protects against foreign particles thicker than 1mm.
- Water splashing against the object from all directions does not have any harmful effect
- Protected against falling water - equivalent to 3-5mm rainfall per minute for duration of 10 minutes
